

# Stepping Out BRANDED PRODUCTS

**Objective:** To recognize product information that provides necessary nutrient data.

1. Review 4 samples of product information for frozen pizzas.
2. Identify 2 samples that provide adequate information needed for a nutrient analysis.

3. Enter into the database the nutrient information listed on one of the selected samples.

## Stepping Out

1. What, if any, nutrient information is provided by CN Labels?

2. How is product information maintained in your school system?
